

MICHAEL DATTOLO

3D PRINTING & PROTOTYPING | CAD | PRODUCT DEVELOPMENT

Hackettstown, NJ | 908-798-3760 | mike.dattolo@yahoo.com

mike-dattolo.com | linkedin.com/in/michaeldattolo

PROFESSIONAL SUMMARY

Product design graduate with hands-on experience in 3D printing (additive manufacturing), digital fabrication, equipment setup, and troubleshooting. Supported prototype builds and trained users in a university innovation lab. Combines CAD, user-centered design, and manufacturing experience to support physical product development.

TECHNICAL SKILLS

CAD & Design: SolidWorks, Autodesk Inventor, AutoCAD, 3D modeling, concept development

Prototyping: 3D printing, rapid prototyping, laser cutting, vinyl cutting, CNC file preparation

Technical Operations: Machine setup, equipment troubleshooting, work orders, documentation, user training

RELEVANT TECHNICAL EXPERIENCE

Techflex | Sparta, NJ

Jun 2025 - Present

Special Operations Specialist

- Set up and operate spooling, printing, and cutting equipment according to work orders, material requirements, and order specifications.
- Install, connect, adjust, and troubleshoot production equipment while following quality, documentation, and safety requirements.

Johnson & Wales University | Providence, RI

Aug 2021 - May 2024

Innovation Lab Technician

- Supported student and faculty prototype builds using 3D printers, laser cutters, vinyl cutters, and CNC workflows.
- Prepared fabrication files, adjusted machine settings, and resolved design or equipment issues affecting output quality.
- Trained students and new employees on equipment operation, safety procedures, and lab standards.

SELECTED ACADEMIC PROJECTS

Reducing Plastic Waste with 5D Printing | JWU, 2023

- Co-authored and presented prototype research exploring support-material alternatives and multi-axis 3D printing as approaches to reducing print waste.

Ergonomic Pipetting Concept | Total Ergonomics, 2022

- Co-developed a foot-pedal pipetting concept with user and occupational-therapy input; the team earned second place in JWU Sharkfest.

Assistive & Rehabilitation Device Projects | BMES, 2022

- Contributed to smart-textile communication and game-based touch-sensing device projects presented at the Biomedical Engineering Society meeting.

ADDITIONAL PROFESSIONAL EXPERIENCE

Staples | Hackettstown, NJ

Jul 2024 - Jun 2025

Retail Sales Manager

- Led sales-floor operations, coached associates, resolved customer issues, and prepared sales and inventory reports for management.

EDUCATION & CERTIFICATION

B.S. in Integrated Product Design | Johnson & Wales University | May 2024

GPA: 3.9 | Dean's List | Autodesk Inventor Certification (2019)
